PROSPECTUS FOR 1873.—SIXTH YEAR

THE ALDINE. An illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the orld. A Reproductive and Champion of American Taste.

Not for Sale in Book or News Stores ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last fall, when the Aldine assumed its present noble proportions and representative character, the edition was more than double the past year; proving that the American public appreciate a sincere ef-fort in the cause of Art. The publishers, anxious to justify the ready confidence thu-demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will as-tonish and delight even the most sanguine friends of the Aldine.

The Aldine will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as

greatest general interest; avoiding such as have become familiar, through photographs have become familiar, through photographs or copies of any kind.

The quarterly tinted plates for 1873, will reproduce four of John S. Davis' inimitable child-sketches, apprepriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's absorbation.

PREMIUM HROMOS FOR 1873. PREMIUM HROMOS FOR 1873.

Every subscriber to the Aldine, who pays in advance for the year 1873, will receive without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures, entitled "The Village Belle," and "Crossing the Moor," are 14x20 inches—are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for \$30 per pair, in the art stores. As it is the determination of its conductors to keep the Aldine out of the reach of competition in every department, the chromos will be found ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, guaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be retunded. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical control of the subscribers to a five dollar perionishing qualities necessary to its growth and the lack. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art: and, considering the unprecedented cheapness of the price for the Aldine itself, the marvel falls little short of a miriacle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of the Aldine.)
